Our philosophy

Limited Edition:
"A precious item of which only a given number are made".

Our mission

Limited Edition is a **Belgian manufacturer** of bespoke textile rugs. Thanks to the expertise acquired over the past 28 years, the creativity and quality of the company's products, Limited Edition assists you with any of your residential or commercial projects.

Our strengths**Over 28 years of know-how**

Well established with more than 28 years of experience in commercial and residential projects, Limited Edition's craftsmen manufacture artisanal rugs of the best quality.

Observation and experimentation continually enrich our technical skills and competencies.

A qualified in-house design team

The design team is overseen by the creative director and founder of Limited Edition, Katia Dewitte.

Her design trademark is a commitment to timeless elegance and a clear-sighted vision of the future. Katia spends a lot of time travelling the world, giving her inspiration to design the collections. Passionate about colours and textures, she understands perfectly how to integrate them into the collections.

Our strengths

Flexibility and speed through vertical integration

Quality, seven letters which express what the company has always been committed to and has extremely well delivered. Our commitment to use only the highest and finest quality raw materials is one step. But Limited Edition's strengths come primarily from local manufacturing. We say 'no' to the general trend of factory outsourcing and prefer vertical integration of our operations. Our weaving and tufting mill have been joined by a dyeing mill and recently by a wool spinning mill, thereby granting the complete control over the production processes.

An unique array of textile machinery

Limited Edition has a wide array of textile machinery that are integrated over the company's 37,000 m² (400,000 sq.ft.) premises.

They allow to produce according to different techniques of production.

In-house wool carding machine, spinning mill Mouscron, Belgium

Our strengths

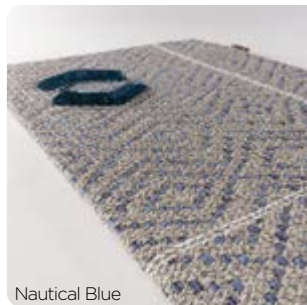

Made to measure rugs readily available

A project does not need to take six months for completion. We can fulfill this in a few weeks thanks to our local integrated production processes, all based in Belgium.

Worldwide personalised service

Limited Edition has qualified sales agents all over the world.

This allows us to be close to our clients at all times, ready to assist each of them before, during and after creating their truly unique floor projects.

Care Instructions

Humidity and organic deposits will always cause moss growth. Allow rug to dry and vacuum regularly.

Instructions d'entretien

L'humidité et les dépôts organiques provoquent toujours la croissance de mousse. Laissez sécher le tapis et aspirez-le régulièrement.

Onderhoudsinstructies

Vochtigheid en organische afzettingen veroorzaken altijd mosgroei. Droog en stofzuig het tapijt regelmatig.

Pflegeanweisungen

Feuchtigkeit und organische Ablagerungen verursachen immer Mooswachstum. Trockne und Staubsauge den Teppich regelmäßig.

Instrucciones de mantenimiento

La humedad y los restos orgánicos siempre provocarán el crecimiento de musgo. Deje secar la alfombra y aspirela con regularidad.

Istruzioni per la manutenzione

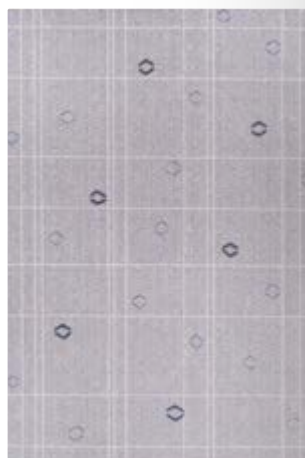

Umidità e depositi organici saranno sempre causa del proliferare di muffe. Lasciate asciugare il tappeto ed aspiratelo regolarmente.
